- Web Skills:** Responsive Design, Accessibility, UI/UX, SEO Basics
- Other:** Training, Workshop Delivery, Public Speaking, Team Coordination, Event Planning, 3D Printing

EXPERIENCE

- Centre for Emerging Technologies** Online
Cyber Security and Cyber Forensics Intern 09/2025 – Present
 - Researched emerging cyber threats and forensic techniques, assisting in drafting security recommendations and strengthening incident response procedures.:
- AngleTwo Innovations Pvt. Ltd.** Remote
Software Development Intern 08/2025 – Present
 - Worked on real-time software projects using Agile methodologies and version control; collaborated with cross-functional teams and participated in daily stand-ups and code reviews.:
- C-DAC Kolkata** On-site
3D Printing and Additive Manufacturing Intern 08/2025 – Present
 - Designed and optimized 3D models using CATIA V5 and slicing software; executed high-precision prototypes on advanced 3D printers, improving manufacturing efficiency and product quality.:
- Techglaz Labs Pvt. Ltd.** Hybrid
Senior Trainer 05/2025 – Present
 - Built and maintained 5+ production-ready web applications with 95%+ mobile responsiveness.:
 - Led training sessions for 80+ junior developers, achieving 90% positive feedback and accelerating onboarding speed.:

PROJECTS

- Preque - selling platform (Product Listing, Admin Dashboard, Payment Integration):** (Work in progress) A website for a linen based cloth selling startup named preque . Tech: Next.js, Tailwind CSS, Next/Image optimization, Node.js & Express, API-first architecture, Secure authentication, MongoDB Atlas.
- 2Basil (Work in progress):** A medical consultancy platform with a FastAPI backend and interactive frontend profiles for doctors and patients. Tech Stack: FastAPI, MongoDB (via Beanie/Motor), Pydantic, Uvicorn, and Vanilla HTML/CSS/JavaScript
- Time Table Generator (Live):** Web-based College Timetable Generator designed for Bhagalpur College of Engineering to create, manage, and export academic schedules with automatic conflict detection and drag-and-drop customization. Tech Stack: Vanilla frontend application built using HTML5, CSS3, and JavaScript, utilizing standard DOM APIs
- Space Shooter Pro (Live):** 2D space shooter arcade game featuring character progression, power-ups, boss battles, and a combo system. Tech Stack: HTML5 Canvas, Vanilla CSS3 and Vanilla JavaScript (ES6+).
- Stock Market Simulator (Live):** Stock market simulation application for trading virtual stocks, tracking portfolios, and analyzing market trends with interactive charts. Tech Stack: HTML5, CSS3, Vanilla JavaScript, Chart.js and Font Awesome.

LEADERSHIP AND INITIATIVES

- Training and Placement Cell:** Managed placement logistics, student registrations, and corporate interactions to ensure smooth recruitment operations.
- Campus TV and Radio Club:** Coordinator at the club where I organized and hosted Inter- and Intra-College Sports 2025 and 2024 and also conducted 10+ workshops on various topics for 100+ students
- Hackathon Team Lead:** Directed teams in 3+ hackathons; won 1st position in one, focusing on AI-integrated tools.
- Workshop Instructor:** Trained 100+ students in web development, photography, and videography along with personality development and videoshoots and photoshoots at college-level events.

PASSIONS

- Designing minimal interfaces that require zero explanation
- Teaching peers through code and design
